

Find the correct EKO ULTRA filter for your spa or hot tub. The compatibility information below is compiled only from EKO ULTRA's own published product pages. Where EKO ULTRA names a brand but does not identify individual models, the entry is shown as **Selected models**.

Important: Spa manufacturers may use different filters depending on model, production year and market. Always compare the dimensions and connection type of your existing filter before ordering.

Quick reference

Filter	Dimensions (L × Ø)	Opening / connection	Filter area	SpaPod
EKO ULTRA 705	23.5 × 12.7 cm	Ø 5.5 cm	1.0 m ²	Yes
EKO ULTRA 706	33.8 × 12.7 cm	Ø 5.5 cm	1.5 m ²	Yes
EKO ULTRA 714	20.8 × 14.8 cm 23.0 cm incl. thread	Ø 4.5 cm coarse male thread Ø 3.8 cm	1.2 m ²	No

How to read this guide

Selected models means that EKO ULTRA lists the spa brand as compatible but does not name the individual models. **All models** is used only where EKO ULTRA explicitly states that all models are compatible. A model-year or product exception is shown exactly where EKO ULTRA specifies one.
