

## WAHSING INSTRUCTIONS FOR LINEN

### Linen terry towels (70% LI, 30% CO)

- Wash linen products separately from other laundry (and wash always dark colours separately)
- Wet textiles soaking wet before placing them in the wash, especially linen terry (more water is left for washing and carrying natural fluff away, when water in the washer does not all absorb in the dry textiles)
- Check the filter of the washing machine regularly, especially before and after washing a new product for the first time
- 60 ° C, short spin, machine half full, normal cycle
- Straighten the textiles and hang on the line to dry

### Flat woven towels (50% LI, 50 % CO)

- Wash linen products separately from other laundry (and wash always dark colours separately)
- Wet textiles soaking wet before placing them in the wash (more water is left for washing and carrying natural fluff away, when water in the washer does not all absorb in the dry textiles)
- Check the filter of the washing machine regularly, especially before and after washing a new product for the first time
- 60 ° C, short spin, machine half full, normal cycle
- Straighten the textiles and hang on the line to dry
- Mangle flat woven linen textiles when still moist

### Linen Sauna Pillows (50% LI, 50% CO)

- Wash linen products separately from other laundry (and wash always dark colours separately)
- Check the filter of the washing machine regularly, especially before and after washing a new product for the first time
- 60 ° C, short spin, machine half full, normal cycle
- Straighten the textiles and hang on the line to dry
